## To Students Having Debts

### **Object: Reminder about Exams to take.**

Students in **License** and **Master** Programs **having debts** are reminded that:

They **must take the end of semester exams** (final and probably, make-up exams) of non-validated courses belonging to non-validated units of non-validated semesters (i.e., **previous semesters' courses whose credits are not acquired yet as indicated in the corresponding academic year(s) transcript(s)**).

Consequently, **they must comply with the posted planning of pedagogical activities resumption regarding the exams (\*)**.

Furthermore, **they are also requested to contact faculty members in charge of courses for which the exams might be performed online (EL104-English II and/or EE382-Engineering Management (\*\*))**.

### **Note:**

Except for the semester M04, a non-validated course (unit or semester) is a course (unit or semester) where the obtained average grade is less than 10/20.

(\*): Lists of concerned students will be provided to the DOU for accommodation during the appropriate exams week(s).

(\*\*): The detailed onsite exams schedules will be available online.
